### FAQ: Protecting Your Information through Authentication

1. **Why do I need to provide personal information to receive my report?**

   Your personal identifying information, such as your Social Security number and date of birth, is only used to confirm your identity and to make sure that the person ordering the report is really you. LexisNexis Risk Solution’s process is similar to the authentication process used by banks, credit card
companies and other organizations that require sensitive personal information to make sure that unauthorized individuals do not access your personal information by phone or by mail.

2. What do you mean by “confirm your identity,” “verify your identity,” and “authentication?”

These are terms used to describe the process of verifying that the person ordering the report is really you. We cannot provide a report to someone merely claiming to be a certain person because the risk of fraud is too great.

3. Will the information that I provide be provided or sold to other companies?

No. The information that you provide will only be used by LexisNexis Risk Solution for authentication and consumer disclosure purposes. We compare the information you provide against existing data in our system to verify your identity. It will not be provided or sold to any other company.

4. Have criminals been able to access information supplied during the authentication process from LexisNexis Risk Solutions in the past?

No. Information supplied by the consumer directly to LexisNexis Risk Solution for authentication purposes is not distributed to, or accessible by, third parties.

5. Is there another way that I can receive a copy of my report without going through authentication?

The only method LexisNexis Risk Solutions has of making sure that your consumer report goes to you and you alone is for you to supply us with the proper identity information that can be matched against existing data in our system to verify your identity. This is necessary to help ensure that only you have access to your report.
